

Please do not change the Wisconsin Do-Not-Call List requirements. Consumers, including myself, want to be able to stop annoying telemarketing phone calls and the proposed petition will decrease the effectiveness of the list. Furthermore, when a person has canceled a service, they have done so for a reason and do not want to be "begged" to come back. It's bad enough that banks, telephone companies, etc., send numerous solicitations via mail when a person cancels service. The Wisconsin Do-Not-Call List has been effective in keeping these unsolicited phone calls to a minimum.
